

Avatar Custom Energetix Test Tray Database Download:

Disclaimer: With this update and installation of the Energetix Test Tray folder, if you currently have *Favorites* created that contain any Energetix products they will be removed/deleted from your Favorite Folders. All the Energetix product details and information has been updated. If the Energetix custom database folder is installed on your Avatar system software you will need to add the Energetix products back into your *Favorites* folder.

The Energetix product categories will be duplicated if they were created in your *Favorites Folders* since they are in the Energetix Test Tray folder with this download.

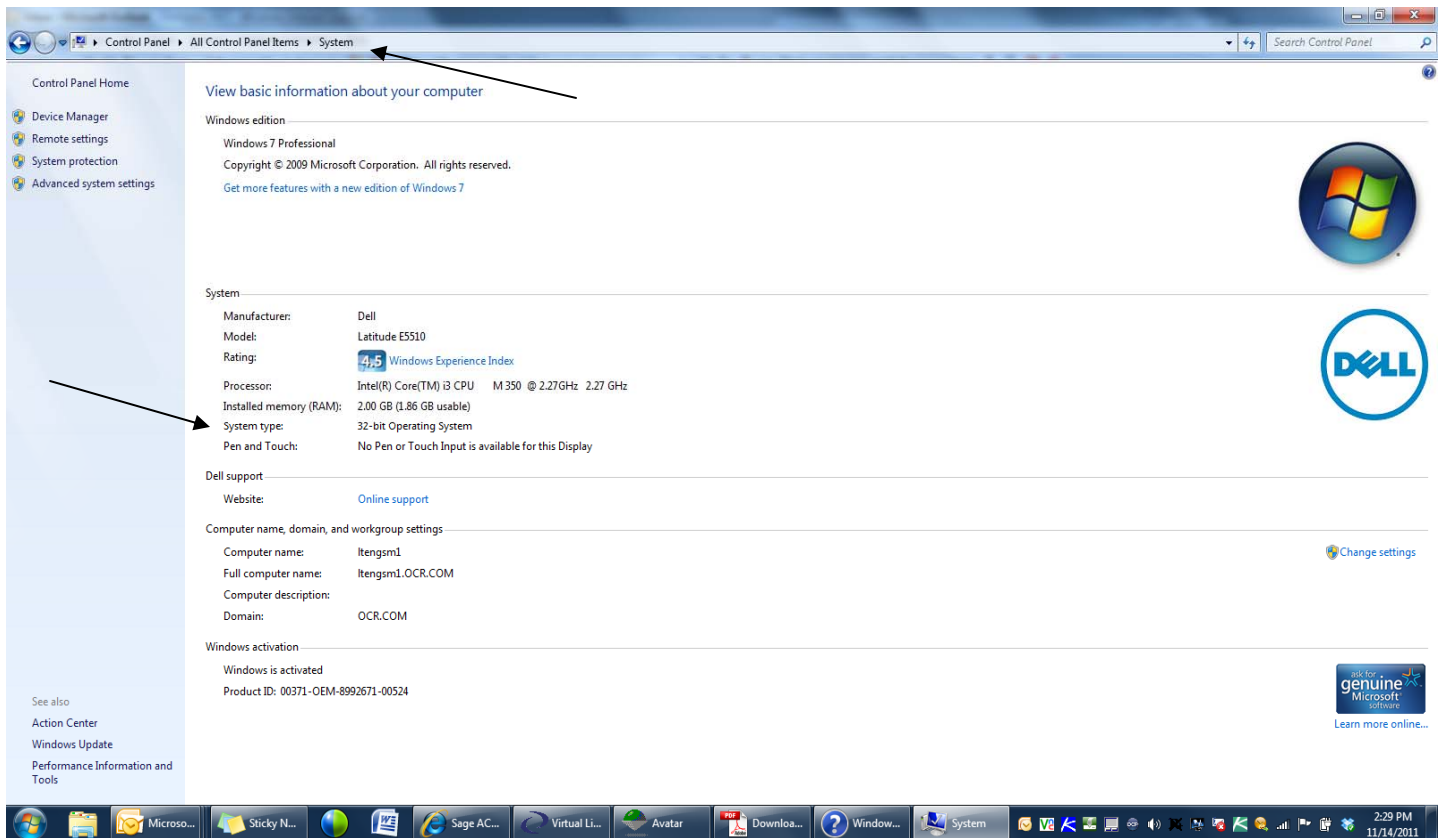

Before downloading the Avatar custom database, you will first need to determine if your computer is running on a 32 or 64 bit system.

For Windows 7 or Windows Vista

Select Windows,

Then select Control Panel > Then select the drop down menu in the top browser window > Then select System

System Type will identify if it is 32 bit or 64 bit operating system

If your computer is running Windows XP, do the following:

1. Click Start.
2. Right-click on My Computer, and then click Properties.
 - If you don't see "x64 Edition" listed, then you're running the 32-bit version of Windows XP.
 - If "x64 Edition" is listed under System, you're running the 64-bit version of Windows XP.
